STATEMENT BY THE MANAGEMENT BOARD	26

Bigbank Group structure

Bigbank AS was founded on 22 September 1992. A licence for operating as a credit institution was issued to Bigbank AS on 27 September 2005. Bigbank is specialised on consumer loans and term deposits.

The Group's structure at the reporting date:

¹ registered in the Republic of Estonia

² registered in the Republic of Latvia

³ registered in the Republic of Lithuania

⁴ registered in the Republic of Finland

⁵ registered in the Kingdom of Spain

⁶ registered in the Kingdom of Sweden

The branches in Latvia, Lithuania, Finland, Spain and Sweden offer lending services similar to those of the parent. In addition, the parent and its Latvian, Finnish and Swedish branches offer deposit services. In addition, Bigbank AS provides cross-border deposit services in Germany, the Netherlands and Austria.

The core business of OÜ Rүүtli Majad is managing the real estate. OÜ Balti Völgade Sissenõudmise Keskus and its subsidiary support the parent and its branches in debt collection.

Review of operations

Significant economic events

The second quarter of 2019 was the most successful quarter of all times for Bigbank AS (hereinafter also "Bigbank" and the "Group").

Strong result was supported by continuously favourable economic outlook in all home markets of the Group. GDP growth rates and employment levels remain favourable. Credit markets are strong and demand for credit products is increasing.

Net profit of the Group was on record high level, 6.1 million euros, in the second quarter of 2019. Compared to the second quarter of 2018 it was 0.9 million euros higher (19%) and compared to the first quarter of 2019 it was 0.3 million euros higher (5%). Profit has grown mainly due to low level of credit losses. Net loss allowances on loans was 0.1 million euros, which is a very strong result compared to previous quarters. Low level of credit losses is a result successful implementation of the Group's strategy. Focusing on servicing clients with lower credit risk has resulted in constant growth of performing loan portfolio and decreasing amount of credit losses. By the end of the second quarter the share of non-performing loan portfolio has dropped to 3.0%.

Compared to the end of 2018 total assets of the Group increased by 4% to 547.2 million euros and equity of the Group increased by 6% to 128.6 million euros. Capitalization level of the Group is strong.

In the second quarter of 2019 performing loan portfolio of the Group increased by 4.6 million euros (1%) to 439.3 million euros. With the first 6 months of 2019 performing loan portfolio has increased by 8.2 million euros (2%). Performing loan portfolio grew in the second quarter the most in Lithuania, where the growth amounted to 5.8 million euros. Out of all branches, performing loan portfolio is also the biggest in Lithuanian branch, amounted by the end of the quarter to 126.4 million euros which is 29% of total Group's performing loan portfolio.

One key reason behind strong second quarter growth result in Lithuanian branch was changing the information system by replacing the old system with Nest. Nest is a modern banking software which includes CRM software, accounting software as well as internet bank functions. The goal for developing and implementing Nest is to support the development and business growth of Bigbank through automatization. Implementation of Nest for all branches is one of the key priorities for the Group in 2019 and by the end of second quarter implementation plan is fulfilled 100%.

On July 1, 2019, also the Latvian branch was fully transferred to the Nest. Formerly it has been deployed also in Finland (2017) and in Sweden (2018).

The supervisory board of Bigbank AS decided on June 5, 2019 to close the Spanish branch of the bank "Bigbank AS Consumer Finance, Sucursal en España" and to carry out all actions required for these purposes. The decision has no significant further influence to the results of the bank, as the new business activities of the Spanish branch were stopped already from April 6, 2018 due to insufficient profitability of the branch operations. The branch concentrated on servicing existing customers and improving the credit quality of the loan portfolio. As the volumes have decreased, it is reasonable to continue servicing remaining customers cross-border, from parent bank from November 2019, followed by the liquidation of the Spanish branch. member of the management board of Bigbank AS Sven Raba has been appointed to be responsible for the process of terminating the activities of the branch.

One additional important event in the second quarter of 2019 was creation of corporate banking area, which is led by Ingo Pöder from June 11. With such step Bigbank is focusing more on business customers offering them more suitable financing solutions. Also Bigbank started servicing business customers in Latvian branch, formerly they were serviced only in Estonian business unit and in Lithuanian branch.

On August 23, 2019, Swedish branch manager Declan Mac Guinness left Bigbank and therefore one important goal in the third quarter is to recruit new branch manager for the Swedish branch.

The supervisory board of Bigbank AS has five members – the chairman of the supervisory board Parvel Pruunsild and the members Vahur Voll, Juhani Jaeger, Raul Eamets and Andres Koern.

Starting from July 1, 2019, management board has four members: the chairman of the management board Martin Lants and the members Sven Raba, Mart Veskimägi and as a new member Argo Kiltsmann, who formerly was head of finance area for the Group. Argo Kiltsmann continues also after July 1 as the head of the finance area.

Bigbank had 413 employees at the end of the second quarter of 2019: 236 in Estonia, 80 in Latvia, 70 in Lithuania, 16 in Finland, 7 in Sweden and 4 in Spain.

Key performance indicators and ratios

Financial position indicators (in thousands of euros)	30 June 2019	31 Dec 2018	Change
Total assets	547,165	528,517	3.5%
Loans to customers	437,800	427,964	2.3%
of which loan portfolio	452,859	445,679	1.6%
of which interest receivable	8,615	6,122	40.7%
of which loss allowances	-23,674	-23,837	-0.7%
Deposits from customers	400,486	393,020	1.9%
Equity	128,564	121,174	6.1%

Financial performance indicators (in thousands of euros)	Q2 2019	Q2 2018	Change	6M 2019	6M 2018	Change
Interest income	16,551	16,685	-0.8%	32,849	33,093	-0.7%
Interest expense	1,642	1,454	12.9%	3,291	2,938	12.0%
Net loss allowances on loans and financial investments	87	2,221	-96.1%	2,336	4,903	-52.4%
Income from debt collection proceedings	137	467	-70.7%	414	966	-57.1%
Profit before impairment loss	6,229	7,384	-15.6%	14,300	15,289	-6.5%
Net profit	6,142	5,163	19.0%	11,964	10,386	15.2%

Ratios	Q2 2019	Q2 2018	6M 2019	6M 2018
Return on equity (ROE)	18.6%	18.5%	19.2%	18.3%
Equity multiplier (EM)	4.4	4.1	4.3	4.1
Profit margin (PM)	32.8%	28.5%	33.7%	28.9%
Asset utilization ratio (AU)	12.9%	15.9%	13.2%	15.5%
Return on assets (ROA)	4.3%	4.5%	4.4%	4.5%
Price difference (SPREAD)	10.9%	12.9%	11.1%	13.3%
Cost to income ratio (CIR)	51.4%	48.7%	50.5%	47.7%

Ratios are presented on an annual basis (i.e. annualised).

Explanations of ratios:

Return on equity (ROE) – net profit to equity

Return on assets (ROA) – net profit to total assets

Equity multiplier (EM) – total assets to total equity

Price difference (SPREAD) – ratio of interest income to interest-bearing assets less ratio of interest expense to interest-bearing liabilities

Profit margin (PM) – net profit to total income

Cost to income ratio (CIR) – total operating costs to net income

Asset utilisation (AU) – total income (incl. interest income, fee income, dividend income and other operating income) to total assets

Financial review

Financial position

As at 30 June 2019, the consolidated assets of Bigbank AS Group totalled 547.2 million euros, having decreased by 1.0 million euros (-0.2%) during the second quarter.

As at 30 June 2019, loans to customers accounted for 80.0% of total assets, the proportion of liquid assets (amounts due from banks and financial debt instruments) was 15.1%. At the end of the second quarter, liquid assets totalled 82.8 million euros. Part of bank's liquidity buffer has been placed in a portfolio of debt securities, which are highly liquid, hold investment grade credit ratings, and can be sold at any moment. Debt instruments totalled 13.2 million euros as at 30 June 2019.

At the end of the second quarter, the Group had 117 thousand loan agreements, 37 thousand of them in Latvia, 30 thousand in Estonia, 29 thousand in Lithuania, 10 thousand in Finland, 9 thousand in Sweden and 2 thousand in Spain.

Geographical distribution of loans to customers:

- 29.4% Lithuania,
- 23.9% Latvia,
- 18.9% Estonia,
- 16.0% Finland,
- 10.2% Sweden,
- 1.6% Spain.

At 30 June 2019, loans to customers totalled 437.8 million euros, comprising of:

- the loan portfolio of 452.9 million euros. Loans to individuals accounted for 94.5% of the total;
- interest receivable on loans of 8.6 million euros;

- loss allowances for loans and interest receivables of 23.7 million euros (consisting of an loss allowance for loans of 22.1 million euros and an loss allowance for interest receivables of 1.6 million euros).

Bigbank's loan portfolio is diversified – at the reporting date the average loan was 3,851 euros and as at 30 June 2019, 40 largest loans accounted for 5.3% of the loan portfolio.

Bigbank AS focuses on the provision of consumer loans. In line with the corporate strategy, as at 30 June 2019 loans against income accounted for 92.6%, loans against surety for 0.2% and loans secured with real estate for 7.2% of the total loan portfolio.

As regards past due receivables, it is important to note that the collection of non-performing consumer loans differs significantly from the recovery of loans that have physical collateral (for example, mortgage-backed loans). Due to their nature (as a rule, consumer loans are backed with the customer's regular income), claims related to terminated consumer loans are satisfied in smaller instalments over an extended period rather than in a lump sum raised through the sale of the collateral.

To mitigate the risks arising from customers' payment behaviour and to cover potential credit losses, the Group makes loss allowances. Bank follows in impairment calculations conservative line. Where debt recovery proceedings do not yield expected results, the underlying receivable is written off the statement of financial position.

At the end of the second quarter of 2019, the Group's liabilities totalled 418.6 million euros. Most of the debt raised by the Group, i.e. 400.5 million euros (95.7%) consisted of term deposits.

As at the end of the second quarter of 2019, the Group's equity was 128.6 million euros. The equity to assets ratio amounted to 23.5%.

Financial performance

Interest income for the second quarter reached 16.6 million euros, decreasing by 0.1 million euros (-0.8%) compared to the same period in 2018.

The period's ratio of interest income (annualised) to average interest-earning assets was 12.5% and (annualised) return on the loan portfolio accounted for 14.6% of the average loan portfolio.

Interest expense for the second quarter of 2019 was 1.6 million euros, increasing by 0.2 million euros (12.9%) compared to the corresponding figure of the same period in 2018.

The ratio of interest expense to interest income was 9.9%. The ratio of interest expense to average interest-bearing liabilities (annualised) was 1.6%.

Other operating expenses for the second quarter were 3.0 million euros, increasing by 0.1 million euros compared to the corresponding figure of the same period in 2018.

Salaries and associated charges for the second quarter of 2019 amounted to 3.8 million euros, including remuneration of 3.7 million euros. As at the end of the period, the Group had 413 employees.

In the second quarter, impairment losses were 0.1 million euros, consisting of:

- impairment losses on loan receivables of 0.5 million euros;
- impairment losses on interest receivables of 0.2 million euros; and
- impairment reversal of other receivables of 0.6 million euros.

Other income for the second quarter of 2019 was 0.1 million euros, the largest proportion of which resulted from debt collection income. In the same period of 2018, other income was 0.6 million euros.

Other expenses for the second quarter reached 0.5 million euros. In the same period of 2018, other expenses were 0.7 million euros.

The Group's net profit for the second quarter of 2019 amounted to 6.1 million euros. In comparison to the second quarter of 2018, net profit has increased by 0.1 million euros.

Notes to the condensed consolidated interim financial statements

Note 1. Basis of preparation and changes to the Group's accounting policies

Basis of preparation

The condensed consolidated interim financial statements of Bigbank AS as at and for the three months ended 30 June 2019 have been prepared in accordance with the international financial reporting standard IAS 34 *Interim Financial Reporting* as adopted by the European Union. The interim financial statements do not include all the information required for full annual financial statements and they should be read in conjunction with the Group's latest published annual financial statements as at and for the year ended 31 December 2018, which have been prepared in accordance with International Financial Reporting Standards (IFRS EU).

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018, except for the adoption of new standards and interpretations effective as of 1 January 2019. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The Group has adopted, for the first time, IFRS 16 *Leases*. As required by IAS 34, the nature and effect of the changes regarding the adoption of IFRS 16 are disclosed below. IFRS 16 did not have a material impact on the interim condensed consolidated financial statements of the Group, neither did other new standards and interpretations applied for the first time in 2019.

This interim report has not been audited or otherwise reviewed by auditors and only includes the condensed consolidated financial statements of the Group. The financial statements are presented in thousands of euros, unless otherwise indicated.

Changes in accounting policies

IFRS 16 *Leases*

The Group has adopted standard IFRS 16 with a date of transition of 1 January 2019. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. All leases result in the lessee obtaining the right to use an asset at the commencement of the lease and, if lease payments are made over time, in obtaining financing. Accordingly, IFRS 16 eliminates the classification of leases into operating and finance leases that was provided in IAS 17 and, instead, introduces a single accounting model for lessees. Lessees are required to recognise: (a) assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value; and (b) depreciation of lease assets separately from interest on lease liabilities in the statement of comprehensive income. IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as

operating leases or finance leases, and to account for those two types of leases differently.

The Group has adopted IFRS 16 partially retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening balance sheet on 1 January 2019.

The Group recognised leases that were classified as operating leases under IAS 17 as items of property and equipment and lease liabilities. The Group leases commercial premises. Rental contracts are typically made for fixed periods of 3 to 10 years and, as a rule, include extension and termination options. Leases are negotiated on an individual basis and may contain different terms and conditions. Leases are recognised as right-of-use assets and lease liabilities (within borrowings) at the commencement date of the lease, i.e. at the date on which the lessor makes the underlying asset available for use by the Group. Assets and liabilities arising from a lease are measured in the statement of financial position at the present value of the lease payments. Lease payments are apportioned between payments for the principal lease liability and finance cost (interest expense). The finance cost is allocated to each period during the lease term so that it would produce a constant periodic rate of interest on the remaining balance of the lease liability. Right-of-use assets are depreciated on a straight-line basis over the lease term of the asset. Assets and liabilities arising from a lease are measured in the statement of financial position at the present value of the lease payments (except for exceptions). Lease payments include the following payments made during the lease term:

- fixed lease payments, less any lease incentives receivable (payments, or reimbursement of costs, by the lessor);
- variable lease payments that are based on an index or rate (e.g. inflation, Euribor);
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option (if the lessee is reasonably certain to exercise the option) and payments resulting from extending or terminating the lease (if the lease term reflects the lessee exercising an option to terminate the lease).

Lease payments are discounted using the interest rate implicit in the lease or, alternatively, the lessee's incremental borrowing rate. The alternative interest rate is the interest rate that the Group would have to pay to borrow the funds necessary to obtain an asset similar to the right-of-use asset. Right-of-use assets are measured at cost, which comprises the following components:

- the present value of the lease payments;
- any initial direct costs incurred by the lessee;
- any lease payments made before the commencement date of the lease;
- costs to be incurred in removing the underlying asset (if required by the lease) or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Short-term leases and leases for which the underlying asset is of low value are recognised as an expense on a straight-line basis over the lease term. In determining the lease term, management assesses how probable it is that the Group will exercise, or not exercise, an extension or termination option, considering all relevant facts and circumstances that create an economic incentive to exercise, or not exercise, an option. Periods covered by an option to extend the lease (or periods covered by an option to terminate the lease) are only included in the lease term if it is reasonably certain that the extension option will be exercised (or the termination option will not be exercised). Management reviews its assessments regarding the extension and termination options upon the occurrence of a significant event or a significant change in circumstances that affects the probability of the Group exercising an option or when there is a change in the non-cancellable

period of the lease. On the adoption of the standard on 1 January 2019, the remaining lease payments were discounted at the Group's incremental borrowing rate of 1.2% on average. The Group applied the practical expedient permitted by the standard of applying a single discount rate to a portfolio of leases with reasonably similar characteristics.

The Group also applied the following expedients:

- operating leases with the remaining lease term of up to 12 months were classified as short-term leases from 1 January 2019;
- initial direct costs were excluded from the measurement of the right-of-use assets at the date of initial application;
- the lease term was determined by taking into account the option to extend or terminate the lease.

As a result of adopting IFRS 16 on 1 January 2019, the Group recognised a right of use asset of 2,785 thousand euros against a corresponding lease liability (*Property and equipment* and *Other liabilities*) on 1 January 2019.

Note 16. Fair values of financial assets and financial liabilities

This note provides an update on the judgements and estimates made by the Group in determining the fair values of the financial instruments since the last annual financial report.

The fair values of the assets and liabilities reported in the consolidated statement of financial position as at 30 June 2019 do not differ significantly from their carrying amounts.

The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);

- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2);

- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

Fair value hierarchy as at 30 June 2019

	Level 1	Level 2	Level 3	Total
Assets measured at fair value				
Debt instruments at fair value through other comprehensive income (note 3)	13,187	-	-	13,187

Liabilities for which fair values are disclosed				
Deposits from customers (note 13)	-	-	393,020	393,020
Subordinated notes	-	-	4,960	4,960
Other financial liabilities	-	-	5,197	5,197
Total liabilities	-	-	403,177	403,177

There have been no transfers between Level 1 and Level 2 during 6 months of 2019 and during 2018.

The Level 3 *loans to customers* that amounts to 437,800 thousand euros is measured at amortised cost using the effective interest rate method less any impairment losses as the management believes that it most effectively demonstrates the fair value of these financial assets. Management estimates that the selected accounting policy on loans reflects the fair value of loans to customers.

The Level 3 *land and buildings* that amounts to 1,368 thousand euros consists of real estate used by the Group in Tallinn.

The properties in Tallinn are revalued using the income approach and market approach. The market approach means that valuations performed by the valuer are based on active market prices, significantly adjusted for differences in the nature, location or condition of the specific property. For valuation of property in Tallinn, for prior year the valuer has taken as basis the prices per square metre of residential space in Tallinn city that were in the range of 2,319 – 2,516 euros.

Under the discounted cash flow method, fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including an exit or terminal value. This method involves the projection of a series of cash flows on a real property interest. To this projected cash flow series, a market-derived discount rate is applied to establish the present value of the income stream associated with the asset. The estimated rental

value per square meter per month is 11 euros, the rent growth 2%, long-term vacancy rate 5%, and vacancy rate for the first year 25% and discount rate 9% for commercial property in Tallinn.

Valuations are performed with sufficient frequency to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Management has assessed that the fair value has not changed in year 2019.

The Level 3 *investment properties* that amount to 1,717 thousand euros consist of real estate used by the Group in Tartu and also plots, houses and apartments originally pledged by customers as loan collateral and later bought by the Group through auctions are measured at the fair value in the financial statements and valuations are performed by the management using market approach.

The investment property in Tartu is valued using the cost model (residual value method) based on the highest and best use of the property. The residual value method takes into account the profit that can be achieved on a development if the existing property would be developed and sold as private flats. Following inputs were used for prior year valuation of the properties in Tartu: price per square metre of flats in Tartu old town 2,200 euros and development costs per square metre 698 euros.

Valuations are performed with sufficient frequency to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Management has assessed that the fair value has not changed in year 2019.

Note 23. Related parties

For the purposes of these financial statements, parties are related if one controls the other or exerts significant influence on the other's business decisions. Related parties include:

- shareholders of Bigbank AS;
- members of Group companies' management and supervisory boards;
- close family members of the above;
- companies connected with the above persons, except where the persons cannot exert significant influence on the company's business decisions.

As at 30 June 2019, the Group had a claim to related parties of 26 thousand euros (*Loans to customer*), the interest income on that claim amounted to 1 thousand euros in 6 months of 2019. As at 31 December 2018, the Group had a claim to related parties of 37 thousand euros, the interest income on that claim amounted to 2 thousand euros in 2018.

Statement by the Management Board

According to the knowledge and belief of the Management Board of Bigbank AS, as at the date of publication:

- the figures and additional information presented in the condensed consolidated interim report for the six months of 2019 are true and complete; and
- the condensed consolidated financial statements provide a true and fair view of the Group's financial position, financial performance and cash flows.
- The condensed consolidated interim report as at 30 June 2019 has been prepared in accordance with the international financial reporting standard IAS 34 *Interim Financial Reporting* as adopted by the European Union and with the information disclosure requirements established by the Bank of Estonia.
- Financial statements have been prepared on a going concern basis.
